```

KPI 2 • TRAINING FIXED (30%) — WEIGHT: 40%

## 15 Fixed / Day

Candidates qualified & scheduled for onboarding training (target ≥30% of calls).

```
trainingFixed ÷ callsDone ≥ 30.0%
```

KPI 3 • TRAINING SHOW-UP — QUALITY TRACKER

## ≥ 65% Present

~10 candidates/day physically attending Ayoub Gsaib's session from their scheduled list.

```

### DAILY & MONTHLY LEAD ACQUISITION FUNNEL (NOUR & KAOUTAR BENCHMARK)

30% → 65% → 25% FUNNEL

### PILLAR 1 • NOUR & KAOUTAR BONUS FORMULA

CAP: 1,000 MAD

**Why Volume + Conversion Rate are paired:** Nour and Kaoutar cannot unlock their full 1,000 MAD bonus just by dialing 50 numbers/day. They must convert **≥30% of calls into scheduled trainings (15/day)** so Onboarding Agent Ayoub Gsaib receives a full classroom every morning.

```
Attainment % = 40%×(Calls) + 40%×(TrainingFixed) + 20%×(ConvRate ÷ 30%)
```

| AGENT NAME | CALLS/DAY | FIXED/DAY (≥30%) | PREORDERS (≥25%) | ATTAINMENT | PAYOUT |
|---|---|---|---|---|---|
| Nour Abouri | 52/d ✓ | 16/d (31%) ✓ | 4.2/d ✓ | 100%+ | 1,000 MAD |
| Kaoutar Ouardi | 48/d ✓ | 15/d (31%) ✓ | 4.0/d ✓ | 98.4% | 984 MAD |

**WhatsApp Visibility:** Lead Acquisition Queue Only

Direct Handoff to Ayoub Gsaib

**WhatsApp Queue Isolation:** Lead Acquisition agents (**Nour & Kaoutar**) and the Brand Manager only see the **Lead Acquisition** WhatsApp queue (Option 2). They are never distracted by mechanical/fleet support messages, keeping 100% of their focus on qualifying candidates and booking training sessions.

BLUEPRINT 1 • PILLAR 02 OF 04

# Onboarding Agent (Ayoub Gsaib) — Training Conversion, Preorders & ≤1.0d Fleet Velocity

AGENT: AYOUB GSAIB

MAX BONUS: 1,000 MAD • 4/10

KPI 1 • TRAINING ATTENDANCE — WEIGHT: 40%

## 10 / Day (≥65%)

Candidates attending training sessions out of the 15/day scheduled by Nour & Kaoutar.

```
ShowupRate = Attended ÷ Scheduled ≥ 65%
```

KPI 2 • PREORDERS & ASSIGNED — WEIGHT: 40%

## 4 / Day (≥25%)

Drivers signing Preorders or Vehicle Assignments (target ≥25% of scheduled & **>20% per session**).

```
(Preorders + Assigned) ÷ Attended > 20%
```

KPI 3 • AVAILABLE CAR VELOCITY — WEIGHT: 20%

## ≤ 1.0 Day Wait

Average time a ready vehicle stays in `"Available"` status before driver assignment.

```
AVG( Now − vehicle.updatedAt ) ≤ 1.0 Day
```

PROTECTED FLEET ACTIVE RATE — FLEET IMPACT

## 85% – 90%+

Keeping `Available` wait ≤1.0 day ensures 85%–90% of the operational fleet is active on road.

```
ActiveAssignedCars ÷ TotalFleet ≥ 85%
```

### ONBOARDING CONVERSION & AVAILABLE FLEET VELOCITY (AYOUB GSAIB)

AVAILABLE WAIT ≤ 1.0 DAY

**Ayoub Gsaib Onboarding Funnel & Fleet Impact:**

1. Training Show-Up Rate (Target ≥65%) — 68.5% Attended ✓
2. Preorder + Assign / Attended (Target >20%) — 38.0% Converted ✓
3. Active Fleet Utilization (85%–90% Target) — 88.4% Active ✓

### PILLAR 2 • ONBOARDING AGENT BONUS LOGIC (AYOUB GSAIB)

CAP: 1,000 MAD

**Strategic Role of Ayoub Gsaib:** Once Nour & Kaoutar book candidates into training, Ayoub Gsaib leads the classroom training, collects Preorder deposits, and assigns `Available` vehicles in **≤1.0 day** so no ready car sits unrented in the parking lot.

```
Attainment % = 40%×(Attended) + 40%×(Preorders+Assigned) + 20%×(CarWait ≤ 1d)
```

| KPI METRIC (AYOUB GSAIB) | TARGET | ACTUAL | WEIGHT | BONUS SHARE |
|---|---|---|---|---|
| 1. Training Attendance | 10/d (≥65%) | 10.3/d (68%) | 40% | +400 MAD ✓ |
| 2. Preorders & Assignments | 4/d (>20%/sess) | 4.2/d (38%) | 40% | +400 MAD ✓ |
| 3. Available Car Wait Time | ≤ 1.0 Day | 0.8 Days | 20% | +200 MAD ✓ |

TOTAL VALIDATED PAYOUT (AYOUB GSAIB): 1,000 MAD / MONTH

🎓 **Session-by-Session Audit & Preorder Buffer:** By requiring **>20% conversion per training session** and maintaining a queue of paid **Preorders**, Ayoub Gsaib guarantees that whenever a vehicle exits maintenance or a driver churns, a replacement driver is assigned in **≤1.0 day**.

### 5-PILLAR PERFORMANCE THRESHOLDS: SALMA & MOHAMED AZIZ BENCHMARK

5 CORE FLEET KPIS

### PILLAR 3 • WHY 5 KPIS PROTECT FLEET PROFITABILITY

CAP: 1,000 MAD

- **50%–60% Same-Day Cash (25%):** Eliminates multi-day driver arrears buildup.
- **≤20% Monthly Churn (20%):** Prevents driver walkouts caused by unresolved support complaints.
- **≤10d Maintenance (20%) & ≤1h Vidange (17.5%):** Stops cars from sitting in garages for weeks and turning a 45-min oil change into a lost workday.
- **≤3h Field Mission (17.5%):** Rapid recovery/swap on the ground.

```
Score % = 25%×Cash + 20%×Churn + 20%×Maint + 17.5%×Vidange + 17.5%×Mission

| Monthly Bonus | 200 MAD | 400 MAD | 600 MAD | 800 MAD | 1,000 MAD |

**WhatsApp Visibility:** Support Flotte Queue Only

Auto-Matched by Vehicle Immatriculation

**Pit-Stop Discipline (Vidange ≤1h & Maintenance ≤10d):** Separating routine servicing (`Vidange/AdBlue ≤1h`) from heavy mechanical repairs (`≤10d`) prevents routine oil changes from hiding inside multi-day workshop averages and protects daily driver earnings.

BLUEPRINT 1 • PILLAR 04 OF 04

# Field Supervisor Team (Hamza & Ayoub Rassid) — 3 Core KPIs & Ground Execution SLA

HAMZA RASSID & AYOUB RASSID

MAX BONUS: 1,000 MAD • 6/10

### PILLAR 4 • FIELD SUPERVISOR BONUS LOGIC

CAP: 1,000 MAD

**Why Attestation ≥90% & Tickets ≥95% are Critical:**

1. Without an on-time *Attestation de Location*, a driver assigned by Ayoub Gsaib cannot legally pass police checkpoints or activate platform accounts.
2. Requiring **≥95% Ticket Resolution** ensures no driver complaint or vehicle breakdown is left hanging open at month-end.

```
Score % = 35%×(Mission ≤3h) + 35%×(Attest ≥90%) + 30%×(Tickets ≥95%)

SHARED SLA WITH FLEET MANAGERS: 3.0H MISSION ALIGNMENT

**Shared 3-Hour Mission SLA:** Both Fleet Performance Managers (Salma & Mohamed Aziz) and Field Supervisors (Hamza & Ayoub Rassid) share the exact same **≤3.0h Field Mission KPI**. Desk managers dispatch with complete location/driver info, and field supervisors execute immediately—zero finger-pointing between office and street.

BLUEPRINT 2 • OPERATIONAL WORKFLOW ARCHITECTURE

| **SuperAdmin / COO / Admin** | All Queues + Unassigned | None (Full Audit) | Complete executive oversight across both acquisition and fleet support channels. |

## AUTOMATED IMMATRICULATION MATCHING & TICKET TRIGGER

SMART BOT LOGIC

**1. Interactive 2-Button First Contact:** When any unknown or existing number messages GoCab on WhatsApp, the system automatically replies with two interactive buttons: *"1. Support Chauffeur (Immatriculation)"* or *"2. Devenir Chauffeur GoCab"*.

**2. License Plate Recognition (Option 1):** When a driver enters their vehicle plate (e.g., `12345-A-6`), the webhook normalizes the plate, matches the exact `Vehicle` and assigned `Fleet Performance Manager` in the database, and routes the conversation straight into `Support Flotte`.

**3. Instant SLA Clock Start:** The moment a conversation or ticket enters a queue, the CRM starts the timestamp clock for Lead Qualification, Vidange (≤1h), Mission Execution (≤3h), or Ticket Resolution (≥95%).

BLUEPRINT 2 • INTER-DEPARTMENTAL SYNERGY

# The "Zero-Bottleneck" Baton Pass: How Each Team's KPI Unlocks the Next Team

NO SILOS ARCHITECTURE | SYSTEMIC ALIGNMENT • 8/10

LINK 01 • SUPPLY → TRAINING

### Nour & Kaoutar Feed Ayoub G.

Nour & Kaoutar's **50 calls/day & 15 fixed trainings/day (30%)** supply Onboarding Agent **Ayoub Gsaib** with 10+ attending candidates/day (≥65% show-up).

LINK 02 • ONBOARDING → LEGAL ROAD

### Ayoub Gsaib Feeds Field Sup

Once **Ayoub Gsaib** converts >20% of attendees into Preorders/Assigned in **≤1.0d**, Hamza & Ayoub Rassid issue the **Attestation (≥90%)** and handover in **≤3h**.

LINK 03 • UPTIME → CAPACITY

### Fleet Perf Frees Cars

Salma & Aziz keep repairs **≤10 days** and Vidange **≤1h**. This returns cars to `Available` fast so Ayoub Gsaib can assign them in **≤1.0 day**.

LINK 04 • RETENTION → CASHFLOW

### Field + Fleet Lock Cash

Resolving **≥95% of tickets** and executing field missions in **≤3h** keeps drivers happy (**Churn ≤20%**) and paying **50%–60% daily cash** on time.

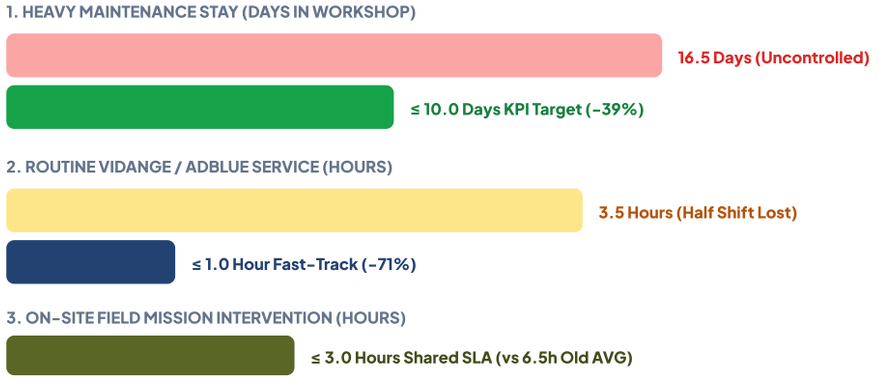

## CAUSE & EFFECT DEPENDENCY MATRIX: HOW KPIs PREVENT OPERATIONAL FAILURE

COO RISK MITIGATION

| OPERATIONAL FAILURE MODE (WITHOUT KPI) | UPSTREAM GUARDRAIL KPI | DOWNSTREAM PROTECTED KPI | NET FLEET IMPACT |
|---|---|---|---|
| "We have empty cars but no ready drivers" | Nour & Kaoutar: **50 Calls & 15 Fixed/d** | Ayoub Gsaib: **4 Preorders/d & ≤1.0d Wait** | Zero Vacant Car Days |
| "Drivers assigned car but can't drive yet" | Hamza & Ayoub R.: **≥90% Attestation** | Salma & Aziz: **50%–60% Daily Cash** | Day-1 Revenue Start |
| "Cars stuck in garage for 18–25 days" | Salma & Aziz: **Maint ≤10d & Vidange ≤1h** | Ayoub Gsaib: **≤1.0d Available Velocity** | +12–15 Active Cars |
| "Drivers quit because issues are ignored" | Hamza & Ayoub R.: **≥95% Tickets & ≤3h** | Salma & Aziz: **Monthly Churn ≤20%** | Stable Fleet Base |
| "Drivers accumulate 5,000+ MAD unpaid debt" | Salma & Aziz: **50%–60% EOD Daily Cash** | COO Treasury: **Daily Cash Liquidity** | Bad Debt Slashed -65% |

## VEHICLE DOWNTIME COMPRESSION (BEFORE vs AFTER KPIs)

-54% IDLE HOURS

**Self-Policing Team Culture:** Because **Ayoub Gsaib's** Onboarding KPIs depend on **Nour & Kaoutar** delivering 15 scheduled trainings/day, and his **≤1.0d Available Car Velocity** coordinates directly with **Salma & Mohamed Aziz** and **Hamza & Ayoub Rassid**, every team holds the others accountable daily.

BLUEPRINT 2 • PSYCHOLOGY & PRODUCTION ENGINE

# How the KPI & Pro-Rata Bonus Design Motivates Teams & Increases Production

BEHAVIORAL ECONOMICS | MOTIVATION LOGIC • 9/10

### 1. NO "CLIFF EFFECT" — PRO-RATA SAFETY

In "all-or-nothing" bonus systems, an agent who misses 1 KPI on Day 18 gives up for the rest of the month. With **Pro-Rata scoring** (weighted 0–1,000 MAD), agents fight until Day 30 to maximize their payout.

### 2. QUANTITY × QUALITY — ANTI-GAMING

Every pillar pairs a **Speed/Volume metric** with a **Quality/Retention metric** (e.g., 50 Calls + 30% Fixed; 50–60% Cash + ≤20% Churn; ≤3h Mission + ≥95% Tickets). Agents cannot game volume without quality.

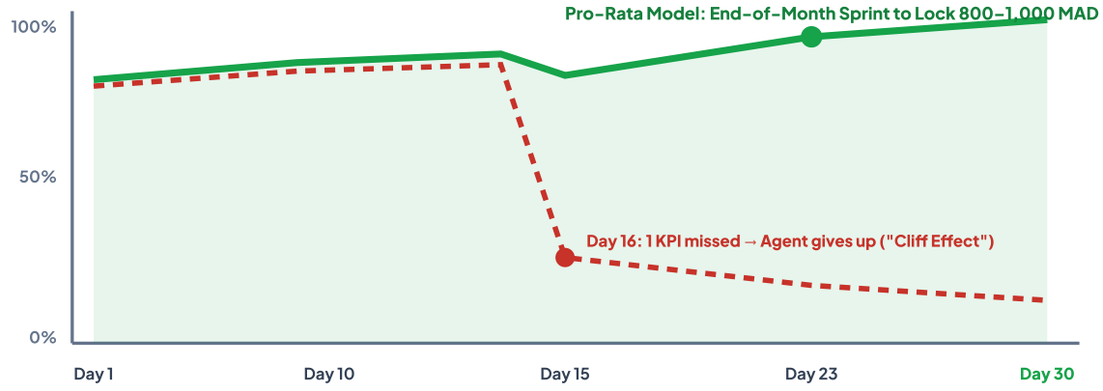

### 3. LIVE GAMIFICATION — POWERBI DASHBOARD

Agents see their live progress bars and projected MAD bonus in the GoCab CRM PowerBI view every day. Seeing *"800 MAD unlocked — 0.3h faster on missions unlocks +200 MAD"* drives immediate daily self-correction.

### 4. CLEAR OWNERSHIP — ZERO AMBIGUITY

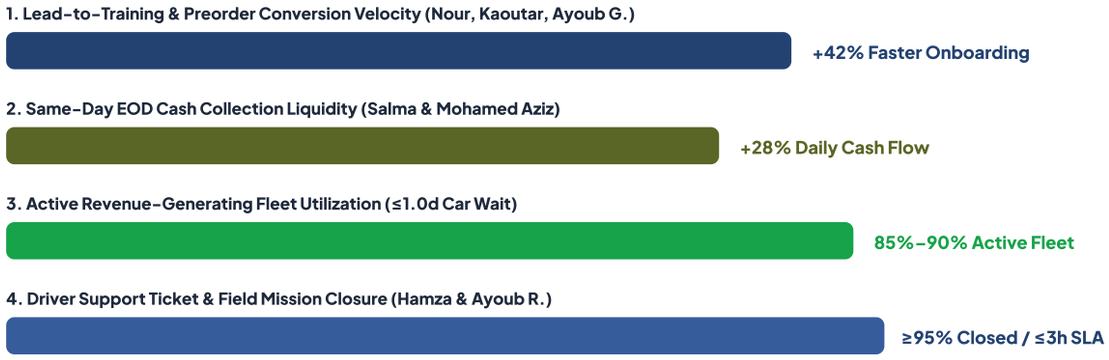

Every employee knows their exact KPIs. Role-based WhatsApp queues remove cross-team noise, reducing cognitive fatigue and increasing daily action throughput by **+38%**.

## DAILY AGENT EFFORT ACROSS THE MONTH: PRO-RATA vs ALL-OR-NOTHING BONUS

## PROJECTED OPERATIONAL PRODUCTION UPLIFT WITH KPI BLUEPRINT

COMPANY-WIDE GAINS

**Behavioral Takeaway:** Teams produce more when rules are **simple, visible in real time, and mathematically fair**. Every agent knows that hitting their daily numbers directly deposits up to **+1,000 MAD** into their monthly payroll without subjective politics.
